PREFACE.

QUOI qu'il paroiſſe difficile, de parler à l'avantage d'un Abrégé, cependant cet Epitome ne manque pas de raiſons pour ſe rendre recommandable: Car excepté les Phraſes, qui ne ſervent qu'à illuſtrer le ſens des mots, il a tous les Avantages que le Public a bien voulu remarquer dans mon DICTIONNAIRE ROYAL in *Quarto*; ſur tout les différentes Acceptations des Termes, expliquées ſéparément & près de cinq mille Mots qu'on ne trouvera point dans aucun autre Dictionaire ANGLOIS & FRANÇOIS; & de plus les Accens marqués ſur les Mots Anglois, pour en faciliter la Prononciation aux Etrangers.

*L'*ACCENT *eſt ou l'élevation, ou la chute de la voix,* ou *un ſon remarquable d'une des Syllabes des Mots que nous prononçons.* Il y a trois Accens, l'Aigu ['] le Grave [`] & le Circonflexe [^].

L'Accent Aigu marque l'élévation de la voix dans ces Mots *ádmirable, cóntrary, contríbutor,* &c.

L'Accent Grave marque la chute, ou l'abaiſſement de la voix, comme dans ces Mots, *adjùre, adò, conjùre,* &c.

L'Accent Circonflexe eſt compoſé des deux autres, & marque l'élévation & la chute de la voix dans la même Syllabe, comme dans ces Mots. *contrîve, backbîte*; mais remarquez que la différence entre l'Accent Grave & le Circonflexe eſt ſi petite & ſi peu ſenſible en Anglois, que nous avons trouvé à propos de n'employer que le ſeul Accent Grave.

Vous devez auſſi remarquer que quelques Mots ont divers Accens pour exprimer leurs différentes ſignifications: Ainſi le Mot Anglois *cómpact*, avec un Accent ſur la premiére ſyllabe, eſt un Subſtantif qui

The PREFACE.

THOUGH *it may ſeem a difficult matter to ſpeak in favour of an Abridgment; yet this Epitome does not want Reaſons to recommend itſelf: For, excepting thoſe Phraſes which ſerve only for Illuſtration, it has all the Advantages which the Public have been pleaſed to obſerve in my* ROYAL *Quarto* DICTIONARY, *chiefly the different Acceptations of Terms diſtinguiſhed and explained, with near five thouſand Words not to be met with in any other* FRENCH *and* ENGLISH *Dictionary; beſides the Addition of Accents to the Engliſh Words, in order to facilitate the Pronunciation of them to Strangers.*

The ACCENT *is either the Raiſing or Falling of one's Voice, or a remarkable ſounding of one of the Syllables of the Words we pronounce.* There are three Accents, *viz.* the Acute ['] the Grave [`] and the Circumflex [^].

The Acute denotes the Elevation of the Voice in the Syllable that bears it; as in theſe Words, ádmirable, cóntrary, contríbutor, *&c.*

The Grave marks the Falling or Depreſſion of the Voice, as in theſe Words, adjùre, adò, conjùre, *&c.*

The Circumflex is a compound of the other two, and marks the Elevation and Falling of the Voice in the ſame Syllable, as in theſe Words, contrîve, backbîte. *But note, that the Difference betwixt the Grave and the Circumflex is ſo very ſmall, and ſo imperceptible in Engliſh, that we have thought fit to make uſe of the Grave only.*

You muſt alſo take notice, that ſome Words have different Accents to expreſs different Significations. Thus còmpact, *with an Accent on the firſt Syllable, is a Subſtantive,*

which

qui ſignifie pacte, contract, accord. Mais *compáct* avec un Accent ſur la derniére Syllabe, eſt un Adjectif qui veut dire lié, ſerré, uni. Et de même, *to conjùre*; ſignifie conjurer, ſupplier; au lieu que, *to cónjure*, veut dire, uſer de ſortiléges, évoquer les Eſprits.

Lors que vous trouvez deux *ee*, ou deux *oo* avec deux Accens (de cette maniére *éé óó*) c'eſt une marque que ce ſont des Dipthongues, la premiére deſquelles ſe prononce comme la Voyelle *i* en François, & l'autre comme la Dipthongue Françoiſe *ou*, comme dans ſes Mots *agréé*, *cóóper*, qui ſelon la Prononciation Françoiſe ſe prononcent *agrie*, *coupre*. Mais lors qu'il y a deux *ee* ou deux *oo*, qui n'ont qu'un Accent, en ce cas-là, *ee* ou *oo*, ne ſont point Dipthongues, mais appartiennent à deux Syllabes, & ſe doivent prononcer ſéparément, comme dans ces Mots, *reénter*, *co-órdinate*, &c.

Enfin, remarquez que quelques Mots Anglois ont deux Accens, comme *co-ópe-râtion*, &c.

which ſignifies a contract or agreement; *but* compáct, *with an Accent on the laſt Syllable, is an Adjective, ſignifying firm, ſolid, cloſe. And in like manner*, to conjùre, *ſignifies to entreat*; *whereas* to cónjure, *ſignifies to uſe enchantments, to raiſe Spirits.*

When you find a double ee *or* oo *with two Accents (thus* éé, óó*) it ſhews that they are Dipthongs, the firſt of which is to be pronounced like the French Vowel* i, *and the other like the French Dipthong* ou, *as in* agréé, cóóper; *which, according to the French Pronunciation, muſt ſound* agrie, Coupre. *But when there comes a double* ee or oo, *having but one Accent, then the* ee *or* oo *are no Dipthongs, but belong to two Syllables, and muſt be pronounced ſeparately, as in* re-énter, co-órdinate, *&c.*

Laſtly, note, that ſome Engliſh Words have two Accents; *as*, co-óperation, *&c.*
